

INSTRUCTIONS FOR AUTHORS

Articles of 4–12 pages, typed, double-spaced (excluding references) should be submitted as hard copy (2 copies) and also on diskette, preferably formatted in Word or Wordperfect, to Editor, *Bulletin for the History of Chemistry*, at the University of Michigan. Chemical formulas, to be kept to a minimum, should be computer-generated and printed on separate sheets, with a clear indication of their location in the ms. Authors are encouraged to provide photographs (black and white glossy prints) and drawings (black ink) to enhance the publication. The title of the article should be of reasonable length (up to 15 words); a subtitle may be included if appropriate. Authors should strive to make the title descriptive of the specific contents, for the sake of clarity to the readers.

Format as found in recent issues of the *Bulletin* should serve as a guide. References should conform to the format as illustrated below. Standard *Chem. Abstr.* abbreviations are to be used (see CASSI); title of the article is in quotes; inclusive page numbers are given for an article or partial section of a book.

O. T. Benfey, "Dimensional Analysis of Chemical Laws and Theories," *J. Chem. Educ.*, 1957, 34, 286–288.

G. W. Wheland, *Advanced Organic Chemistry*, Wiley, NY, 1949.

J. R. Partington, *A History of Chemistry*, Macmillan, London, 1972, Vol. 4, 104–105.

L. P. Rowland, Ed., *Merritt's Textbook of Neurology*, 8th ed., Lea and Febiger, Philadelphia, PA, 1989.

Please include a short biographical sketch, to be included at the end of the article.

Readers are encouraged to submit short notes, where appropriate, and letters to the Editor, as well as articles. We would welcome hearing from those who have an interest in refereeing papers and/or preparing book reviews.

APPLICATIONS INVITED

First Glenn E. and Barbara Hodsdon Ullyot Scholarship

The Chemical Heritage Foundation (CHF) is pleased to announce the creation of the Glenn E. and Barbara Hodsdon Ullyot Scholarship Fund. The purpose of the Ullyot Scholarship is to advance public understanding of how important the chemical sciences are to the public welfare. The first Ullyot Scholarship will be awarded for summer 1996; it offers a stipend of \$1,500. The scholarship supports a minimum of four weeks research on the heritage of the chemical sciences utilizing the resources of CHF's Othmer Library of Chemical History in Philadelphia, other area libraries, and associated resources.

The Othmer Library houses primary sources from the sixteenth century through the mid-twentieth century, with emphasis on the last 100 years. The library maintains a wide array of reference books and secondary literature on the history of the chemical sciences and technologies, as well as the personal papers of outstanding chemists and industrialists and the archives of professional organizations. The core of the library—over 40,000 volumes that span the era from the Civil War through World War II—forms an unrivaled resource for the history of American chemical business and technology.

To apply, please send four copies of a curriculum vitae, a one-page description of the proposed research, and the telephone numbers of two referees. The proposal should demonstrate how the Othmer Library's resources are relevant to the applicant's project. Applications must be received by 31 March 1996 and should be sent to Laurel Adelman, Chemical Heritage Foundation, 315 Chestnut Street, Philadelphia, PA 19106. Telephone (215) 925-2222 Fax: (215) 925-1954.
